# **AY** Recruitment CIC

« part of **AY** GROUP

AY Recruitment CIC seeks to challenge the recruitment sector to do better business, by providing opportunities for employment for people distant from the jobs market through a temporary to permanent employment solution, that can be combined with relevant vocational training, apprenticeships and mentoring support for progression.

AY Recruitment offers Sector Based Work Academies and work-based vocational qualifications - a wide range of Edexcel Levels 3 & 4. It enables candidates to overcome barriers to employment through addressing skills gaps, confidence issues and work experience. Our employer links are based on ethical partnerships to provide recruits with the London Living Wage and a commitment to on-the-job training, in order to give those most disadvantaged in the labour market the chance to progress.
